brandsafetysummit.com/singapore | 614group.com

Software Engineer

Wevio India Info Solutions Pvt. Ltd. | India | 2017 - 2019

- Created responsive websites using HTML, CSS, JavaScript, and Bootstrap.
- Converted design mockups into pixel-perfect, production-ready web pages.
- Strengthened fundamentals in UI development, web standards, and cross-browser support.

Key Features

- **High-Volume Page Delivery:** Delivered and maintained 5,000+ production-ready campaign landing pages across multiple industries, ensuring consistent UI standards and quality.
- **WordPress Event Websites:** Developed and supported high-traffic global event websites using WordPress with responsive layouts and SEO-friendly structure.
- **Responsive & Cross-Browser UI:** Ensured seamless performance across mobile, tablet, and desktop, tested and optimized for Chrome and Firefox.
- **UI Quality & Optimization:** Improved UI quality and reduced defects through reusable CSS components, structured layouts, and best practices.
- **Marketing & Campaign Focus:** Built conversion-focused landing pages aligned with digital marketing objectives and A/B testing requirements.

Professional Highlights

- 6+ years of professional experience delivering frontend and UI solutions in fast-paced, deadline-driven environments.
- Proven ability to translate design mockups into pixel-perfect, production-ready interfaces with strong attention to detail.
- Experienced in cross-functional collaboration with design, QA, and marketing teams within Agile workflows.
- 3 months of hands-on experience in React.js, working with functional components and UI modules.
